

## FACULTY TRAINING PROGRAMME ON BIGDATA ANALYTICS REPORT

The Training programme on Bigdata Analytics organized by the Department of Computer Science and Engineering and Information technology was to provide a platform for academicians, researchers, students and professionals from the industry. It was to elevate their research work and was also an exchange of ideas in the field of Computer science and Engineering and Information Technology.

The Training program was held on 27<sup>th</sup> April 2016 with the inaugural function graced by the chief guest Professor C.R. Rao, Dept of Computer Science, University of Hyderabad in the august presence of *Shri K.Razak*, Advisor, Velammal Institute of Technology, *Dr. T. Chandrashekar*,

Principal, Velammal Institute of Technology, *Dr.S.Soundararajan*, Vice Principal, Velammal Institute of Technology and Conveners *Dr. R.Sugumar*, Professor, Dept of Computer Science and Engineering, *Dr B.Murugeswari*, Professor IT, Velammal Institute of Technology. The Inaugural function began with a prayer note. The Programme Convener, *Dr. R.Sugumar Department of CSE* heartily welcomed the Chief Guest, the Advisor, the Principal, the Vice Principal and the delegates in his inimitable style.

Professor K. Razak, honored the chief guest with the momento and welcomed the participants. He stated that technology is developing everyday and gave a small description on cloud computing and big data. He proudly said that Dept of Science and Technology has selected Velammal Institute of Technology to conduct this privileged 10 days training program

.Dr. T.Chandrashekar, Principal, Velammal Institute of Technology gave a motivational speech on the need of learning bigdata. He also briefed about the gap between technology and learners and their need to be filled by the skill sets based on the fast growing trends in the industry.

The Chief Guest,Professor C.R. Rao, Department of Computer Science University of Hyderabad, addressed on the technical importance on data analysis related to the real world. He explained the concept of bigdata in steps starting from the collection of data its processing and using them in different techniques. He also related the concept with medical world treating different diseases by examining the disorders using Bigdata Analysis.

Finally, Dr. B.Murugeswari Professor Department of Information Technology gave the vote of thanks. She extended her heartfelt thanks to the chief guest, other dignitaries and the audience for the day.

There was enormous participation from the students and faculty members of various Engineering Institutions. The session was very interesting and the participants were inquisitive about the concepts in bigdata analytics.

The Programme overall was a feather in the cap and was a milestone in the records of Velammal Institute of Technology. The Computer Science and Information Technology Department is always known for giving its quality education and in imparting practical training for the students. This will be continued in the years to come with the workshops and conferences which improves the intuitive minds of the younger generation.
