

## REPORT - GO GREEN 2016

# State Level Best Project / Poster Competition on Environmental Pollution Control and Prevention

22<sup>nd</sup> October 2016

A state level Best project/ Poster competition on Environmental Pollution Control and Prevention was organized by Department of Chemistry, Velammal Institute of Technology on 22<sup>nd</sup> October 2016. The event has been initiated with an aim to self-educate and impart awareness among students about pollution control and pollution prevention and their key role in contributing to the society. This event is useful to protect the environment and also providing various suggestions and solution for a clean ambience through projects and models. The poster presentation will create awareness to the students and public at large.

The chief guest for the inaugural function was Dr. K. Palanivelu, Director, Centre for Climate change and adaptation Research, Anna University. He gave various innovative ideas to prevent pollution, recycle methods, ground water contamination, global warming etc. for the future generation.

The Principal Dr. T. Chandrashekar gave the presidential address and he emphasized that this is the right time each student should think on how to save society and to control pollution.

Dr.S. Tamilselvi, HoD of Chemistry welcomed the gathering. The advisor of the college, Prof. K. Razak gave elaborate speech about the pollution and global warming. The inaugural function came to an end with vote of thanks by Mr. R.M. Ravindran, Assistant Professor, Department of Chemistry.

Nearly 400 students from Chennai and other district schools participated with their project and poster in the event.

The Valedictory function was presided over by the principal. Cash Prizes were given to the best project/ poster for junior and senior level winners of the competition.

The valedictory function ended with vote of thanks by Mr. S. Jagan Raj, Assistant Professor, Department of Chemistry.
